

## DISCOVER THE ULTIMATE IN PUNCTURE RESISTANCE

The largest range of puncture  
resistant tyres in the UK

Reduce downtime to zero and  
cut tyre maintenance costs.

**REDWING®**  
DRIVEN BY SUPERIOR STRENGTH, QUALITY AND VALUE

The secret to achieving puncture resistance is the use of **thousands of super strong aramid fibres, five times stronger than steel**. Also known as Kevlar and used in bullet proof vests, ours are **woven into the tyre forming the puncture resistant layer**.

## Discover the Ultimate in Puncture Resistance

Our unique aramid system extends over the shoulders of the tyre to provide protection to the sidewalls for maximum puncture resistance – unlike any other brand available.

It means our RX Aramid range ensures the ultimate protection from thorns, nails and anything else that could pierce tyres and ruin your day.

## Superior Protection for all of your Machines

RX Aramid is available in a wide range of sizes and treads, including our bestselling **Turf 24** tyres, as well as **Multi Rib**, **Knobbly** and **Traction**. It's the largest range of commercial puncture resistant tyres in the UK, helping you keep your machines up and running at all times.
